

# SAFETY DATA SHEET RUBIA TIR 7400 15W40

**SDS # :** 087103

### Section 1. Identification

**Product identifier** 

: RUBIA TIR 7400 15W40

#### Recommended use of the chemical and restrictions on use

ŝ

| Identified uses |
|-----------------|
|-----------------|

Motor oil

Supplier's details

|                               | TotalEnergies Lubrifiants<br>562 Avenue du Parc de L'ile<br>92029 Nanterre Cedex FRANCE<br>Tél: +33 (0)1 41 35 40 00<br>Fax: +33 (0)1 41 35 84 71<br>rm.msds-lubs@totalenergies.com |
|-------------------------------|---|
|                               | TotalEnergies Marketing Services<br>Direction Afrique<br>24 cours Michelet<br>92800 PUTEAUX<br>FRANCE<br>Tel : +33 (0)1 41 35 40 00<br>Fax : +33 (0)1 41 35 82 88                   |
|                               | See section 16 to have the contact details of the local supplier  |
| Emergency telephone<br>number | : +44 1235 239671<br>To speak to an interlocutor in Portuguese or Spanish: +44 1235 239670  |

### Section 2. Hazard identification

| Classification of the substance or mixture          | : | Not classified.  |
|---|---|--|
| GHS label elements                                  |   |  |
| Signal word   | : | No signal word.  |
| Hazard statements                                   | : | No known significant effects or critical hazards.                |
| Precautionary statements                            |   |  |
| Prevention  | : | Not applicable.  |
| Response  | : | Not applicable.  |
| Storage   | : | Not applicable.  |
| Disposal  | : | Not applicable.  |
| Other hazards which do not result in classification | : | Prolonged or repeated contact may dry skin and cause irritation. |

## Section 3. Composition/information on ingredients

Substance/mixture

: Mixture

#### Additional information

: Mineral oil of petroleum origin Product containing mineral oil with less than 3% DMSO extract as measured by IP 346

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

Description of necessary first aid measures

| Eye contact  | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Get medical attention.</li> </ul>  |
|--------------|---|
| Inhalation   | : Remove victim to fresh air and keep at rest in a position comfortable for breathing.<br>Get medical attention if symptoms occur.  |
| Skin contact | : Wash skin thoroughly with soap and water or use recognized skin cleanser.<br>Remove contaminated clothing and shoes. Get medical attention if symptoms occur.   |
| Ingestion    | Wash out mouth with water. If material has been swallowed and the exposed<br>person is conscious, give small quantities of water to drink. Do not induce vomiting<br>unless directed to do so by medical personnel. Get medical attention if symptoms<br>occur. |

#### Most important symptoms/effects, acute and delayed

| Potential acute health       | effects   |
|------------------------------|---|
| Eye contact                  | : No known significant effects or critical hazards.   |
| Inhalation                   | : No known significant effects or critical hazards.   |
| Skin contact                 | : Defatting to the skin. May cause skin dryness and irritation.   |
| Ingestion                    | : No known significant effects or critical hazards.   |
| <u>Over-exposure signs/s</u> | <u>ymptoms</u>  |
| Eye contact                  | : No specific data.   |
| Inhalation                   | : No specific data.   |
| Skin contact                 | : Adverse symptoms may include the following:<br>irritation<br>dryness<br>cracking  |
| Ingestion                    | : No specific data.   |
| Indication of immediate      | medical attention and special treatment needed, if necessary  |
| Notes to physician           | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
| Specific treatments          | : No specific treatment.  |

#### **Protection of first-aiders** : No action shall be taken involving any personal risk or without suitable training.

#### See toxicological information (Section 11)

SDS #: 087103

## Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use dry chemical, CO <sub>2</sub> , water spray (fog) or foam.  |
| Unsuitable extinguishing media                 | : Do not use water jet.   |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal<br>decomposition products    | : carbon monoxide<br>Carbon dioxide (CO <sub>2</sub> ).<br>nitrogen oxides<br>phosphorus oxides<br>Zinc oxides<br>Hydrogen sulfide<br>Mercaptans<br>sulfur oxides   |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without<br/>suitable training.</li> </ul> |
| Special protective equipment for fire-fighters | <ul> <li>Fire-fighters should wear appropriate protective equipment and self-contained<br/>breathing apparatus (SCBA) with a full face-piece operated in positive pressure<br/>mode.</li> </ul>                         |

## Section 6. Accidental release measures

| Personal precautions, protect  | ive equipment and emergency procedures   |
|--------------------------------|--|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Put on appropriate personal<br>protective equipment.   |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |
| Environmental precautions      | : Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).  |
| Methods and materials for con  | ntainment and cleaning up  |
| Small spill                    | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.  |
| Large spill                    | : Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

SDS #: 087103

## Section 7. Handling and storage

| Precautions for safe handling                                      | 1 |  |
|--|---|--|
| Protective measures  | 1 | Put on appropriate personal protective equipment (see Section 8).  |
| Advice on general occupational hygiene                             | : | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.  |
| Conditions for safe storage,<br>including any<br>incompatibilities | : | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use. |

### Section 8. Exposure controls/personal protection

#### **Control parameters**

#### **Occupational exposure limits UN**

None.

#### Occupational exposure limits Egypt

| Product/substance   | Exposure limit values  |
|---|--|
| Distillates (petroleum), solvent-dewaxed heavy<br>paraffinic<br>Distillates (petroleum), hydrotreated heavy<br>paraffinic | ACGIH TLV (United States, 1/2021).<br>TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable fraction<br>ACGIH TLV (United States, 1/2021).<br>TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable fraction |
| Occupational exposure limits Lesotho  |  |

| Product/substance                              | Exposure limit values                                      |
|--|--|

| Distillates (petroleum), hydrotreated heavy    | ACGIH TLV (United States, 1/2021).                         |
| paraffinic                                     | TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable fraction |

#### **Occupational exposure limits South Africa**

| Product/substance                              | Exposure limit values                                      |
|--|--|
| Distillates (petroleum), solvent-dewaxed heavy | ACGIH TLV (United States, 1/2021).                         |
| paraffinic                                     | TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable fraction |
| Distillates (petroleum), hydrotreated heavy    | ACGIH TLV (United States, 1/2021).                         |
| paraffinic                                     | TWA: 5 mg/m <sup>3</sup> 8 hours. Form: Inhalable fraction |

| Appropriate engineering controls | : | Good general ventilation should be sufficient to control worker exposure to airborne contaminants.  |
|----------------------------------|---|---|
| Environmental exposure controls  | : | Emissions from ventilation or work process equipment should be checked to ensure<br>they comply with the requirements of environmental protection legislation. In some<br>cases, fume scrubbers, filters or engineering modifications to the process<br>equipment will be necessary to reduce emissions to acceptable levels. |
| Advisory OEL                     | : | Mineral oil mist: USA: OSHA (PEL) TWA 5 mg/m3, NIOSH (REL) TWA 5 mg/m3, STEL 10 mg/m3, ACGIH (TLV) TWA 5 mg/m3 (highly refined)   |

SDS #: 087103

## Section 8. Exposure controls/personal protection

| Wash hands, forearms and face thoroughly after handling chemical products, before<br>eating, smoking and using the lavatory and at the end of the working period.<br>Appropriate techniques should be used to remove potentially contaminated clothing.<br>Wash contaminated clothing before reusing. Ensure that eyewash stations and<br>safety showers are close to the workstation location.  |
|--|
| Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.  |
|  |
| Chemical-resistant, impervious gloves complying with an approved standard should<br>be worn at all times when handling chemical products if a risk assessment indicates<br>this is necessary.<br>Hydrocarbon-proof gloves<br>Fluorinated rubber<br>nitrile rubber<br>Please observe the instructions regarding permeability and breakthrough time which<br>are provided by the supplier of the gloves. Also take into consideration the specific<br>local conditions under which the product is used, such as the danger of cuts,<br>abrasion, and the contact time. |
| Personal protective equipment for the body should be selected based on the task<br>being performed and the risks involved and should be approved by a specialist<br>before handling this product.  |
| Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.  |
| None under normal use conditions   |
|  |

# Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature ( $20^{\circ}C / 68^{\circ}F$ ) and pressure (1013 hPa) unless otherwise indicated

| Appearance                                   |   |                                     |
|--|---|-------------------------------------|
| Physical state                               | : | Liquid. [limpid]                    |
| Color  | : | Brown.                              |
| Odor   | : | Characteristic.                     |
| Odor threshold                               | : | Not available.                      |
| рН   | : | Not applicable.                     |
| Melting point/freezing point                 | : | Not available.                      |
| Boiling point                                | : | Not available.                      |
| Flash point                                  | : | Open cup: 200°C (392°F) [ASTM D 92] |
| Evaporation rate                             | : | Not available.                      |
| Flammability (solid, gas)                    | : | Not available.                      |
| Lower and upper explosive (flammable) limits | : | Not available.                      |
| Vapor pressure                               | : | Not available.                      |
| Vapor density                                | : | Not available.                      |

**SDS # :** 087103

# Section 9. Physical and chemical properties and safety characteristics

| Calcium long chain alkaryl sulfonate   | -                 | -          | Not readily      |
| Calcium long chain alkaryl sulfonate   | -                 | -          | Not readily      |

#### **Bioaccumulative potential**

| Product/substance   | LogKow | BCF | Potential |
|---|--------|-----|-----------|
| Phosphorodithioic acid,<br>mixed O,O-bis(sec-Bu and<br>1,3-dimethylbutyl) esters,<br>zinc salts | 4      | -   | high      |

| Mobility in soil<br>Soil/water partition<br>coefficient (K <sub>oc</sub> ) | : Not available.   |
|--|--|
| Mobility in soil   | : Given its physical and chemical characteristics, the product generally shows low soil mobility The product is insoluble and floats on water Loss by evaporation is limited |
| Other adverse effects  | : No known significant effects or critical hazards.  |

**SDS # :** 087103

### Section 13. Disposal considerations

**Disposal methods** : The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

### Section 14. Transport information

|                               | ADR            | IMDG           | ICAO/IATA      |

| UN/ID No                      | Not regulated. | Not regulated. | Not regulated. |
| UN proper<br>shipping name    | -              | -              | -              |
| Transport hazard<br>class(es) | -              | -              | -              |
| Packing group                 | -              | -              | -              |
| Environmental<br>hazards      | No.            | No.            | No.            |

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

## Section 15. Regulatory information

#### International regulations

**Chemical Weapon Convention List Schedules I, II & III Chemicals** Not listed.

**Montreal Protocol** 

Not listed.

Stockholm Convention on Persistent Organic Pollutants Not listed.

**Rotterdam Convention on Prior Informed Consent (PIC)** Not listed.

**UNECE Aarhus Protocol on POPs and Heavy Metals** Not listed.

**SDS # :** 087103

## Section 15. Regulatory information

| Inventory list                              |   |
|---|---|
| Australia inventory (AIIC)                  | : All components are listed or exempted.  |
| Canada inventory (DSL/NDSL)                 | : All components are listed or exempted.  |
| China inventory (IECSC)                     | : All components are listed or exempted.  |
| Europe inventory (EC)                       | :   |
| Japan inventory                             | <ul> <li>Japan inventory (CSCL): All components are listed or<br/>exempted.</li> <li>Japan inventory (ISHL): Not determined.</li> </ul> |
| New Zealand Inventory of Chemicals (NZIoC)  | : All components are listed or exempted.  |
| Philippines inventory (PICCS)               | : All components are listed or exempted.  |
| Korea inventory (KECI)                      | : All components are listed or exempted.  |
| Taiwan Chemical Substances Inventory (TCSI) | : All components are listed or exempted.  |
| Thailand inventory                          | : Not determined.   |
| Turkey inventory                            | : Not determined.   |
| United States inventory (TSCA 8b)           | : All components are listed or exempted.  |
| Vietnam inventory                           | : Not determined.   |
|   |   |

The information stated in this section relates solely to the conformity of the chemical product with the countries Inventories. The information used to confirm the inventory status of this product may be based on additional data to the chemical composition shown in Section 3. Other regulations may apply for importation or marketing authorizations.
